Individual results may vary and are not guaranteed.

- ❖ One simple treatment with recovery in as little as four days
- ❖ Deep tone & texture improvement
- ❖ Minimal risk of complications
- ❖ Smoother skin without drastic facial changes

## Frequently Asked Questions

*What areas are appropriate for wrinkle treatment?*

Laser wrinkle treatment is ideal for deep, difficult-to-treat lines and creases around the eyes, mouth and face.

*How does it work?*

Your provider uses an ablative fractional laser from the company that invented and patented micro-fractional laser technology. Laser wrinkle treatment uses laser light to deliver energy deep into the skin, generating new skin that's smooth and even.

*How long does it take?*

This is a single-treatment procedure that can be performed in as little as 30 minutes, depending on the size of the treatment area.

*Does it hurt?*

Your provider will discuss pain management options with you.

*How many treatments will I need?*

Most people see results with only one treatment session.

*How quickly will I recover?*

You can resume regular daily activities often in as little as four days.

*What can I expect after treatment?*

Ask your provider to discuss the necessary post-treatment care with you.

*Laser wrinkle treatment delivers the dramatic, long-lasting results you desire.*

# Younger-Looking Skin with Fractional Laser Wrinkle Treatment.

It's time you looked as young and vital as you feel. And now you can, with a fractional laser wrinkle treatment that is FDA-cleared to reduce unwanted lines on your face, including around your eyes and mouth.

Just one laser wrinkle treatment can diminish the appearance of even the deepest lines, without lengthy downtime and with long-lasting results.

It's not magic. It's powerful laser technology that breaks down facial lines and creases and helps generate new skin that's healthier and smoother.

Laser wrinkle treatment is a treatment alternative that lets you recover in as little as four days without the pain or side effects of more invasive surgery.

Best of all, laser wrinkle treatment lets you look like you—only better. Same face but with fewer lines and wrinkles—and without unnatural facial changes.

*Address facial lines and creases with nonsurgical laser wrinkle treatment, ideal for:*

Periorbital (eye) wrinkles • Crow's feet • Perioral (mouth) wrinkles • Frown lines • Lipstick lines • Smoker's lines • Facial wrinkles

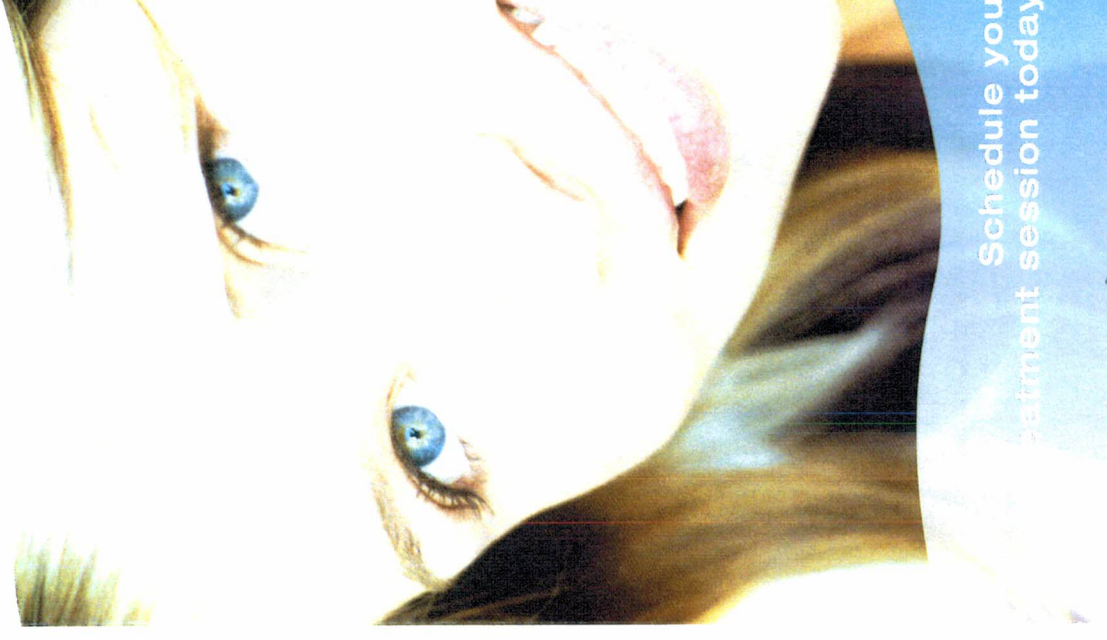

REDUCE THE APPEARANCE OF CROW'S FEET AND SMOOTH YOUR LIPSTICK LINES IN JUST ONE SESSION.
