Testimonials

"Rejuvapen is an amazing technology! My experience after 6 Rejuvapen treatments has been nothing short of life changing. Not only has Rejuvapen improved my skin, it has improved my confidence, my relationships, and the way I compose myself in public."

Shaundra S.

"Rejuvapen has been a quick and painless treatment that has provided fantastic results. I am amazed by the progress I have seen thus far and would highly recommend it to others suffering from acne scarring."

Dalton G.

"Fantastic result after just two treatments. This treatment is a 5 star winner and highly recommended as my skin has never looked this great."

Edie D.

Post-Treatment Experience

Most patients look as though they have a moderate to severe sunburn and your skin may feel warm and tighter than usual. This is normal and will subside after 1 to 2 hours. Most patients usually recover within 24 hours or less. Your practitioner will prescribe a Rejuvapen approved post-procedure skincare product or recovery kit.

About Rejuvapen

The Rejuvapen Automatic Therapy System utilizes 9 precisely spaced micro needles in a small cartridge to create invisible, vertical, micro perforations into the epidermis and the top layer of the dermis. As a result, the skin shifts its natural repair mechanism into high gear and starts producing collagen and elastin to repair these micro-perforations. The self-repairing property of the skin is a 100% natural form of skin renewal from the inside out. Your skin becomes firmer and regains its elasticity, fine lines and wrinkles are visibly reduced, pores become finer, circulation is stimulated and the overall condition of the skin improves.
